COMMUNITIES USING TECHNOLOGY FOR CHANGE

A way to find safe drinking water. A tool to identify invasive species. A real time air quality monitor for small businesses. Apps to help lonely kids connect.

Our global community of women changemakers has innovated these solutions and more! Join us to empower girls to become leaders, creators and problem-solvers.
Program Overview
Young Women 8-18

- Research a local or global problem students want to help solve
- Learn coding/AI & design a technology solution in teams of 1-5 girls
- Create a business plan & pitch their idea in a global competition

Teams supported by trained mentors

40+ hours of free online interactive curriculum
Technovation establishes partnerships and onboards schools and organizations.

Local partners are trained and receive ongoing support as they recruit and support students and mentors.

Girls use online curriculum to learn about coding, AI, entrepreneurship and issues like climate change.

Teams design an AI or app solution and submit their pitch videos and business idea on our virtual platform.

Industry professionals volunteer as judges to score and give feedback on every project.

Chapters can hold local pitch events to showcase projects. Finalists get scholarships and a trip to our World Summit.

**Program Timeline**

- **Onboarding**: Sept
- **Training**: Oct
- **Curriculum**: Nov
- **Design**: Dec
- **Judging**: Jan
- **Celebration**: Feb

**Program Timeline**

- **Submissions due April 24th**
**LOOKING FOR LEADERS TO PARTNER WITH US TO EMPOWER GIRLS**

**Ways to partner:**

<table>
<thead>
<tr>
<th>Chapter Ambassador</th>
<th>Club Ambassador</th>
<th>Mentor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leaders in schools or organizations who oversee Technovation in their community</td>
<td>Community members who support Technovation in their community by working directly with multiple teams</td>
<td>Industry professionals, educators, parents, or community members who dedicate time to guide and directly support 1 or more teams</td>
</tr>
<tr>
<td>Gain experience in leading STEM programming and network with a professional community of changemakers</td>
<td>Great opportunity to expand your engagement in a community</td>
<td>In person and virtual mentoring options</td>
</tr>
<tr>
<td>Chapter Ambassadors aim to engage 10 or more teams of students and usually recruit mentors or utilize staff to work directly with the teams</td>
<td>Club Ambassadors aim to engage 5 or more teams of students. This is an ideal role to pilot or begin Technovation for the first time</td>
<td>Mentors use the mentor guide to support teams as they design and submit their Technovation project</td>
</tr>
</tbody>
</table>
