

COACHING

Coaches provide feedback and guidance to teams on their projects in a 1-hour session. Teams will come prepared with the question(s) they have and provide the context of their project in advance.

Conversations will be focused in one area of the program:

- Ideation/Brainstorming
- Coding - MIT App Inventor
- Coding - Thunkable
- Artificial Intelligence
- Business
- Pitch writing
- Video Recording and Editing

What's the difference between a mentor and a coach?

A mentor works with a team for the entire season as a project manager, while a coach supports a team with specific questions in a single session as a topic specialist.

Time commitment

Coaches determine when they want to be available to book time with teams.

We ask that coaches complete at least 5 sessions for the season.

Onboarding
1 hour

Session Length
1 hour

Recommended prep time per session

30 minutes - 1 hour

The process

-  Complete training and the signup form
-  Onboard onto Calendly, complete profile and update availability
-  Teams book time with coach
-  Prepare for the session with provided template
-  Meet the team! Share your feedback!
