What's the difference between a mentor and a coach?

A mentor works with a team for the entire season, while a coach supports a team with specific questions in a single session.

A coach can give your team feedback on a specific part of their project. They can also be helpful if your team does not have a mentor to get feedback from.

If I don't have any questions can I book time with a coach?

Unfortunately no, we want to make the most of everyone's time. **You and your team need to have 1-3 questions** to help the coach prepare for the session.

Does each team member need to sign up for a coach?

Only 1 person per team needs to signup. After they pick a time, they can add their team members and a trusted adult.
